For A Love Less Ordinary

Relucir's Core Focus Is Custom Made-To-Order Jewelry, Proudly set with Laboratory Grown Diamonds Of The Highest Caliber. Our Quality Standards are second-to-none and it shows in every bespoke piece we deliver.

Compared to mined diamonds, our man-made diamonds have superior brilliance, purity and origin. It's no wonder Fortune says man-made diamonds are now better than mined.

The Sacred and the Daily Aspects of love
expressed in a form. A tiny dense space

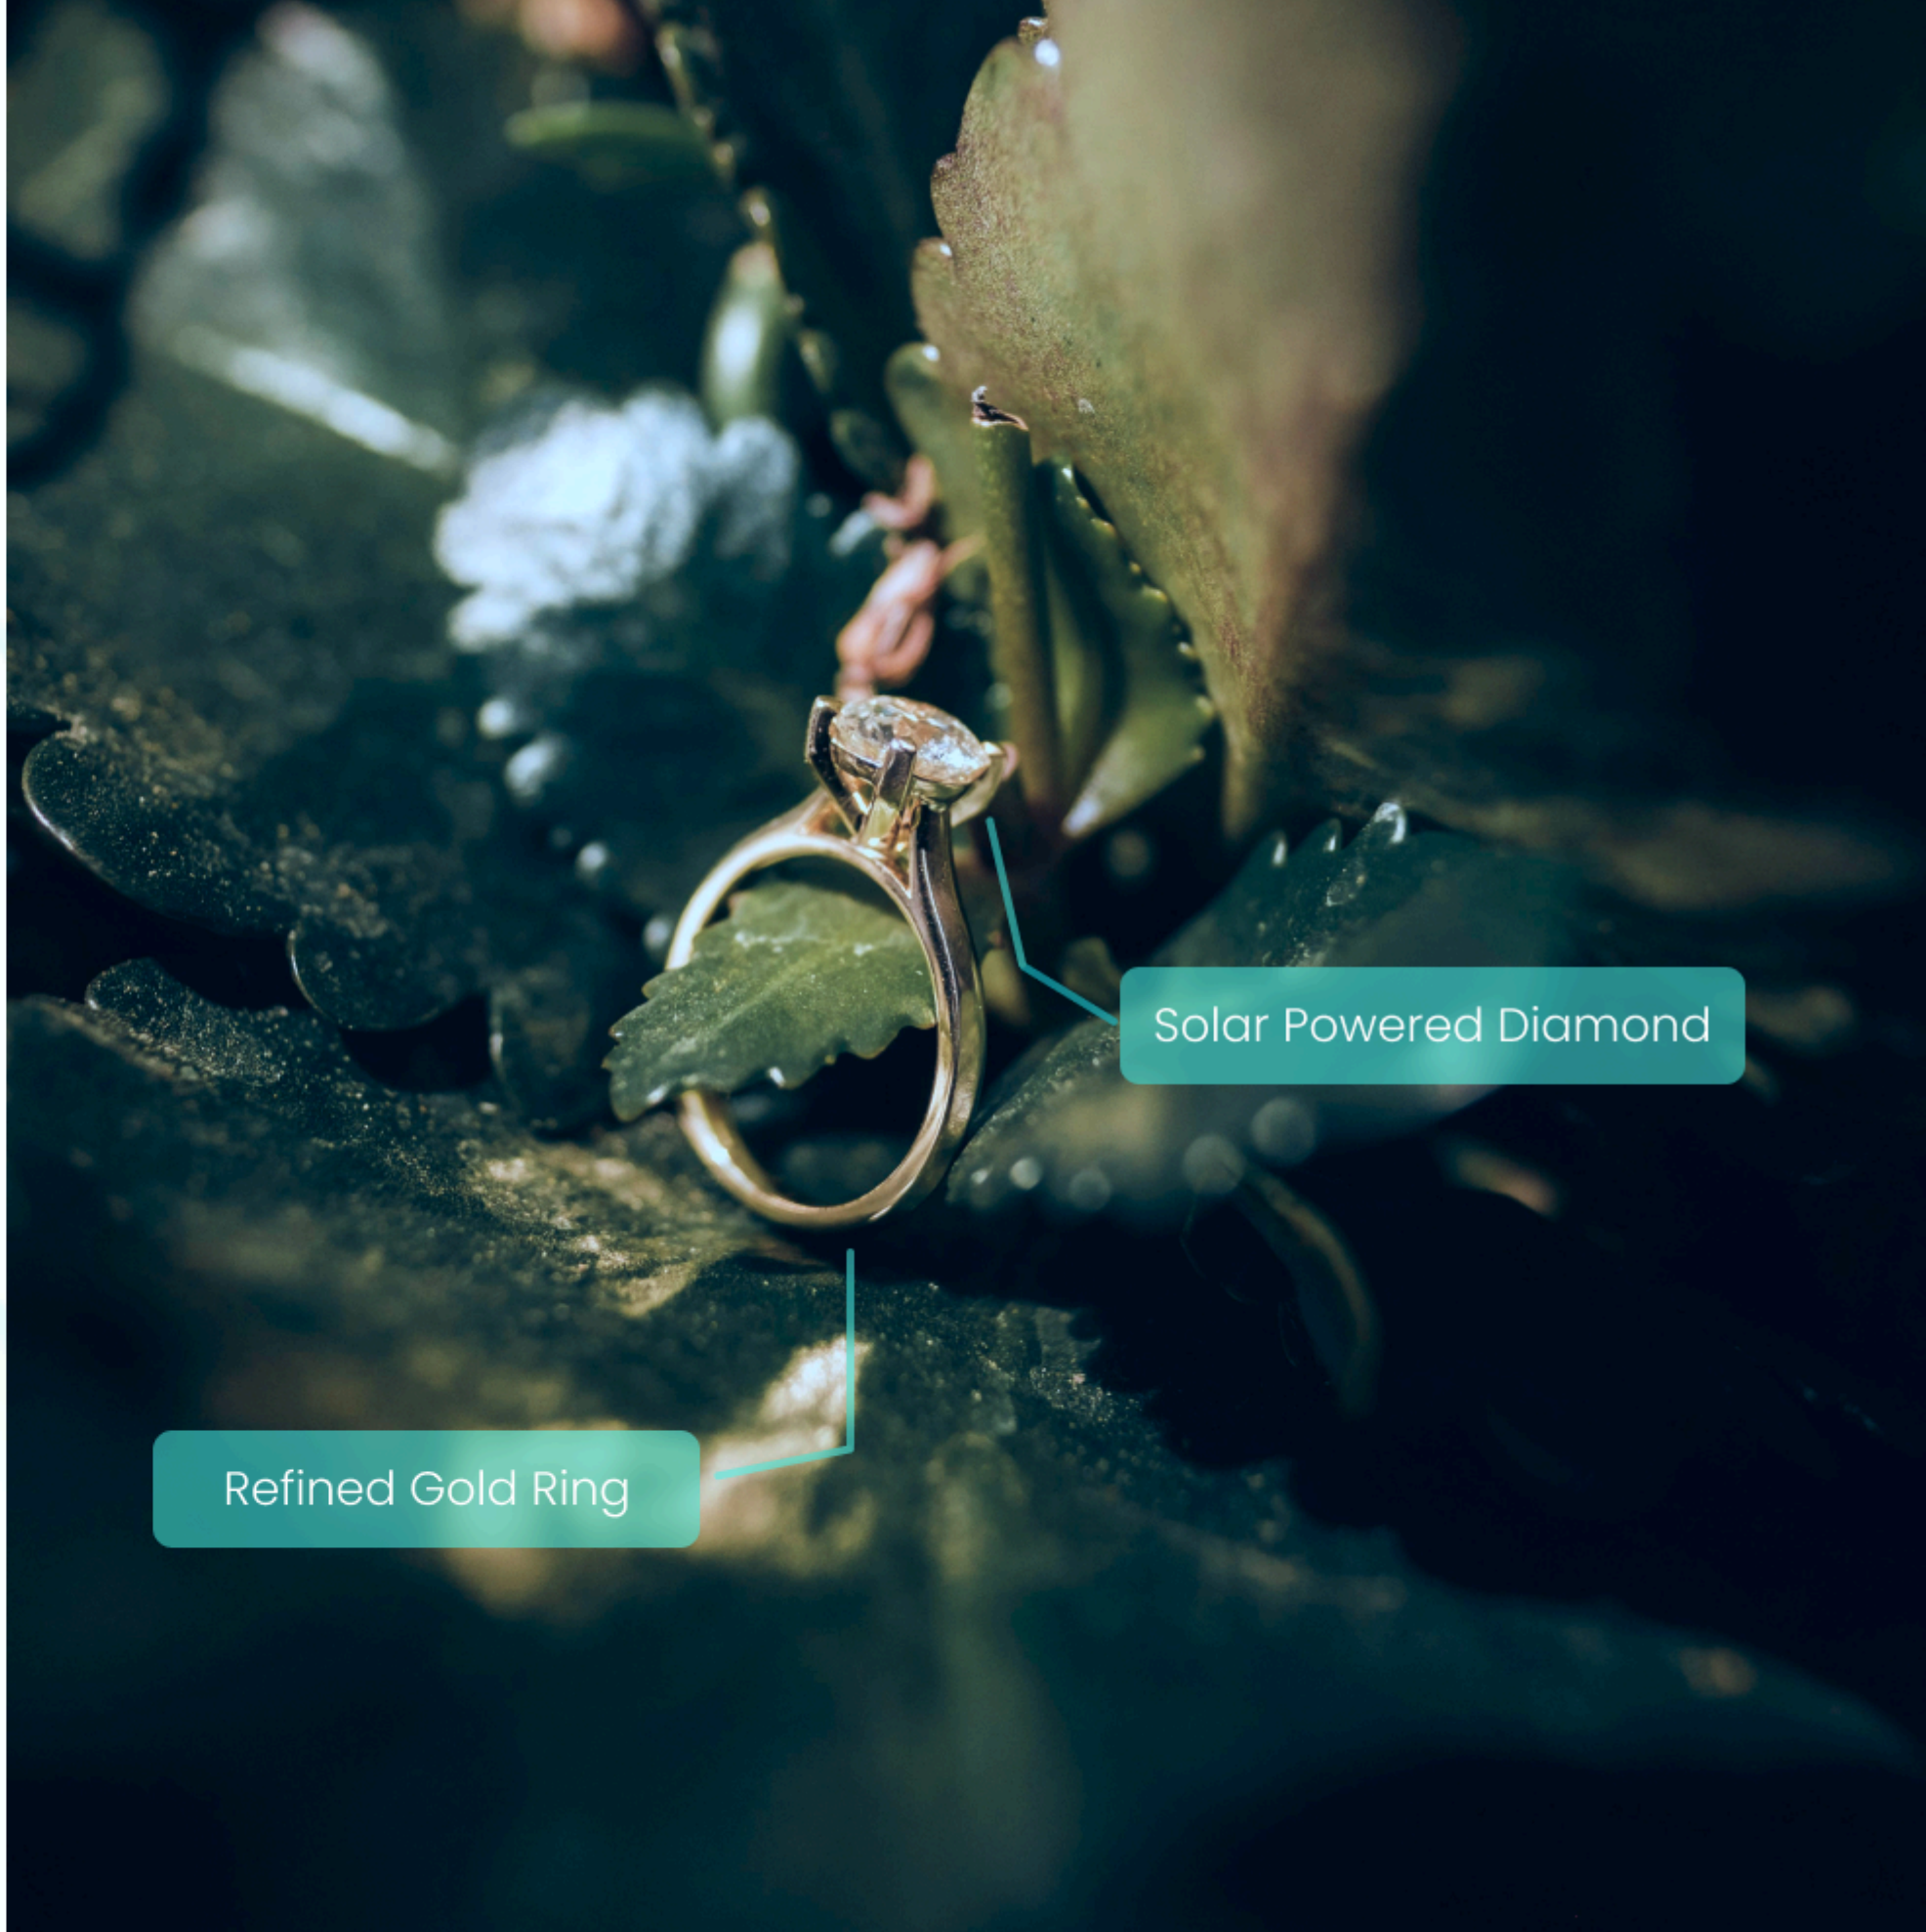

Ethically Crafted Jewelry

Solar Powered Diamond

Showcasing a brilliance, appearance, and hardness that mirrors natural diamonds, these ethically produced gems are created with a focus on sustainability, powered exclusively by 100% renewable energy sources.

Refined Gold

Transitioning towards a more sustainable jewelry-making process while upholding the exceptional quality our designs are celebrated for signifies a significant advancement for our business.

Princess-cut diamond bracelet

Experience the epitome of luxury with our princess-cut diamond bracelet. Each meticulously selected diamond is expertly crafted into a timeless piece that exudes elegance and charm

Our Bespoke Process

From Sketch To Heirloom

Step 1: Share Your Ideas

Create your dream Jewelry with the help of an experienced manual designer

Step 2: We Design Your Item

We create high tech computer modeling to enhance the precision of the finished product

Step 3: Final Jewelry

Our experienced craftsmen will crash your dream into the reality

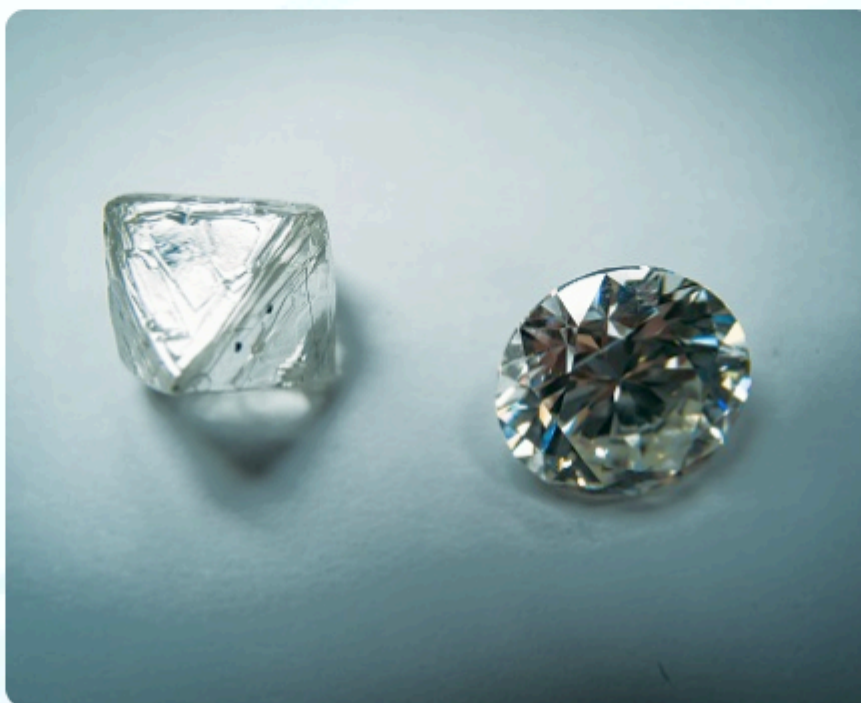

Our Custom Cut Process

From Rough To Polish

Step 1: Marking & Cleaving

After careful examination to establish their cleavage lines diamonds are split in half by gently being tapped with a special hammer

Step 2: Swaing & Faceting

The cutter polishes the rough diamond using a spinning wheel, which soothes the stone and creates the diamond facets

Step 3: Finishing

Finally, experts conduct inspections to check the stone symmetry, cutting angles and polish
